

I am concerned that if Low Power FM (LPFM) takes priority over current FM translator service, I will lose K-Love (104.3 FM, and 102.3 FM). K-Love is the sole radio station my family listens to. They provide a service that is incomparable to other stations, providing powerful Christian music, scripture, encouraging stories, and National news coverage. K-Love is several steps above other stations who hold no regard for Christian ethics or morals. Our community would also be devastated to lose such a valuable station and service(s) provided by K-Love.

K-Love is 100% empowered by it's listener's. Hundred's of Thousands of people listen daily to K-Love and rely on their positive and encouraging messages. They have the right to air. We have the right to support and hear them. Forcing them or other like stations off the air would be doing our community a huge injustice.
